Product Identifier

SRM Number: 1544

SRM Name: Fatty Acids and Cholesterol in a Frozen Diet Composite

Under the U.S. Department of Labor, Occupational Safety and Health Administration (OSHA) 29 CFR 1910.1200, this Standard Reference Material (SRM) is NOT classified as a physical hazard or a health hazard, a simple asphyxiant, combustible dust, pyrophoric gas, or hazard not otherwise classified. There are no hazard pictograms, hazard statements or signal word associated with it. Safety Data Sheet information is not required. This document may be used in conjunction with your hazard communication program.

Description: This SRM is intended primarily for verifying the accuracy of methods used for the determination of fatty acids and cholesterol in food materials. A unit of SRM 1544 consists of four bottles, each containing approximately 15 g of a composite food material, that has been thoroughly ground and blended. The composite is representative of a typical U.S. diet.

Additional Notes: For laboratory use only. Not for human consumption. See Certificate of Analysis for storage and use instructions.

Disposal: SRM 1544 components and derived solutions should be disposed of in accordance with local, state, and federal regulations.

Transport Information: This material is not regulated by the U.S. Department of Transportation (DOT) and/or International Air Transportation Association (IATA).

Disclaimer: This document was prepared carefully, using current references. Users of this SRM should ensure that this document and the corresponding Certificate of Analysis in their possession are current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at <http://www.nist.gov/srm>.
