DATE: 08 January 2016

Product Identifier

SRM Number: 2383a

SRM Name: Baby Food Composite

Under the U.S. Department of Labor, Occupational Safety and Health Administration (OSHA) 29 CFR 1910.1200, this Standard Reference Material (SRM) is NOT classified as a physical hazard or a health hazard, a simple asphyxiant, combustible dust, pyrophoric gas, or hazard not otherwise classified. There are no hazard pictograms, hazard statements or signal word associated with it. Safety Data Sheet information is not required. This document may be used in conjunction with your hazard communication program.

Description: This SRM is intended primarily for use in validating methods for determining proximates, calories, vitamins, and elements in food matrices. This SRM can also be used for quality assurance when assigning values to in-house control materials. The baby food composite is a mixture of fruits, vegetables, macaroni, rice flour, and milk powder. A unit of SRM 2383a consists of four jars, each containing approximately 70 g of material.

Additional Notes: For research use. It is NOT for human consumption.

Disposal: SRM 2383a should be disposed of in accordance with local, state, and federal regulations.

Transport Information: This material is not regulated by the U.S. Department of Transportation (DOT) and/or International Air Transport Association (IATA).

Disclaimer: This document was prepared carefully, using current references. Users of this SRM should ensure that this document and the corresponding Certificate of Analysis in their possession are current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at <http://www.nist.gov/srm>.
