DATE: 12 July 2017

Product Identifier

SRM Number: 2976

SRM Name: Trace Elements and Methylmercury in Mussel Tissue (Freeze-Dried)

Under the U.S. Department of Labor, Occupational Safety and Health Administration (OSHA) 29 CFR 1910.1200, this Standard Reference Material (SRM) is NOT classified as a physical hazard or a health hazard, a simple asphyxiant, combustible dust, pyrophoric gas, or hazard not otherwise classified. There are no hazard pictograms, hazard statements or signal word associated with it. Safety Data Sheet information is not required. This document may be used in conjunction with your hazard communication program.

Description: This SRM 2976 is intended for use in evaluating analytical methods for the determination of selected trace elements and methylmercury in marine bivalve mollusk tissue and similar matrices. All of the constituents for which certified and reference values are provided in SRM 2976 are naturally present in the freeze-dried mussel tissue. A unit of SRM 2976 consists of one bottle containing approximately 25 g of freeze-dried mussel tissue.

Disposal: SRM 2976 components and derived solutions should be disposed of in accordance with local, state, and federal regulations.

Transport Information: This material is not regulated by the U.S. Department of Transportation (DOT) and/or International Air Transport Association (IATA).

Disclaimer: This document was prepared carefully, using current references. Users of this SRM should ensure that this document and the corresponding Certificate of Analysis in their possession are current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at <http://www.nist.gov/srm>.
